

Regarding DesignLink Architecture and Interiors

To whom it may concern:

It is with great pleasure that I recommend DesignLink Architecture for future projects.

I have had the unique experience of acting as both an Owner and General Contractor while building Infusion Spa (also known as You Spa) located in the Tequa Festival Marketplace in Sedona, Arizona. I hired DesignLink after an in-depth search for a design firm that would work to meet my many needs including:

- o develop a unique and upscale environment enticing all of the senses
- o create functionality and flow for both staff and clientele
- o utilize design features that softly incorporate asian influence without being overt
- o maintain construction budget using innovative materials
- o produce documents per agreed schedule for fast track construction timeline

As principal architect of DesignLink Architecture, Debra Weisburg led the design team in an organized and commendable fashion. They worked hard to put on paper what had started as a dream in my mind. The team was dedicated to creating the perfect environment while working with budget and schedule constraints. We worked as a team through Value Engineering sessions to bring the project together.

I have worked with many, many design firms over the 20 years that I have been in the construction industry. I would have to say that DesignLink performed with the highest integrity and professionalism that I have seen. They guided me through every step of the process from design to permitting to punchlist. It was a pleasure to step into the Ownership role and then on to the Contractor role with DesignLink at my side.

I believe that you will be very satisfied to have Debra and DesignLink on your team and hope you will select them when planning your future projects.

Sincerely,

Brandi Hunt  
Spa Director and Construction Manager
