To whom it may concern;

I would highly recommend the use of the DesignLINK for your building or design project. My wife and I have worked with Debbie and her team for the last six months on a new custom home project and are extremely satisfied with their work.

This is the first home construction project for us and the DesignLINK has turned a challenging process into very enjoyable experience. The key to their service is “one-stop” shopping for architectural design, interior design and builder selection. It is so much easier and cost effective, to have one team handle these critical steps of the process.

DesignLINK came highly recommended and they have met our expectations. Please call me if you would like to discuss my experience with DesignLINK in greater detail.

Sincerely,
